DEAR COMIC BOOK CONSUMER,

First let me apologize for the "form letter" but it was necessary due to the circumstances (which I do not have to explain to you) I will however write you a personal hand written letter (for \$5.00 cash or M.O. only) anytime.

Now let me "thank you" for making such a fine purchase (if you haven't paid for your own copy.... put the damn thing down or buy it!). Well you certainly know a bargain when you see one. When I think of the fine purchase that you made it sends chills up my spine. It gives me goosebumps all over my body and I just feel good all over...oh thank you! Oh thank you! You don't realize how good you make me feel. Oh this is wonderful!...Oh shit...I did it again...oh...I'm so embarrassed. I sure am glad you can't see this. Oh god how am I going to explain this to...the dry cleaners?...I'll just say it's Elmer's glue. Naw she'll never believe that. I could say it's.... no that's no good or maybe...nah! Hey why am I discussing this with you it's none of your business, besides I saved this page so I could tell you why NU-ARTIST COMIX was created.

For the past two (2) years I have been involved in publishing an alternative music publication (WARNING fanzine). People send mail to us from everywhere. Some people submit stories, some pictures and even interviews. But my most favorite mail of all was letters packed full of artwork and comic strips.

I was never disappointed because there was always something interesting, new and even exciting (well most of the time). Anyway after a while I gained a massive stockpile of comics (and you know what you do when you have a massive stockpile of comics... that's right you publish a comic book). So what you're holding in your hands is a compilation of 17 different cartoonist art, all deserving of recognition and beside that I always wanted to put out a comic book.

Ladies and gentlemen the staff of WARNING fanzine presents NU-ARTISTS COMIX.
